Consumer Notes:

Although we've been saying it now for months, it still comes as a bit of a surprise that there doesn't seem to be any Laserdisc releases this month ... only VHS and DVD. When Pioneer - the LD king - stops pressings discs, well, that's about it. Surprisingly, this month is actually pretty light in terms of VHS product too: notable however are the second volume of *Fushigi Yugi* and the start of another series of *Tenchi Muyo* tapes.

Finally, from all of us at The Right Stuf International, we'd like to wish everyone out there a pleasant holiday season! Without your support over the years, we couldn't have grown into the best source of anime product in the US! Thanks, and we'll see you next year!

JEFF'S PICK(S) OF THE MONTH

Probably all the good stuff to bring in winds up being shirts this time around. Although it's a pity they're later than they should be, I'd opt for the Evangelion T-shirts ... judging by the past performance of the shirt manufacturer (they did all those Akira shirts, among a ton of others) I'm sure they'll be very nice. The new chromacels are sure to be very popular, too!

SPECIAL NOTE: DVD Street dates have been slipping frequently as of late (some of the items on this list have been listed more than once before). We have plenty of product on order, though, and will ship to you the day of receipt from the manufacturer. However, please be aware that it is very possible that there will be additional delays.
